

Students should be able to do the following:

- Locate the 7 continents and the 5 oceans on a world map.
- Name the 4 Cardinal Directions and locate South Carolina on a map of the United States.

- Locate the River Systems on a map of South Carolina and know the facts about each one.

1. Santee River
2. Savannah River
3. Pee Dee River
4. Edisto River

- The **Santee River System** is the longest in South Carolina. It flows from the Blue Ridge Mountains to the Atlantic Ocean.
- The **Edisto River System** is the shortest; it doesn't flow into another state.
- The **Savannah River** is the border between South Carolina and Georgia.
- The **Pee Dee River** flows from North Carolina, through the northeastern part of SC, into the Atlantic Ocean.
- All of the major **lakes** in South Carolina are man-made; they were made by damming the large rivers.

- Locate **important places** on a map of the Southeastern Atlantic Coast.

1. South Carolina
2. Atlantic Ocean
3. Georgia
4. North Carolina
5. Charleston
6. Columbia
7. Myrtle Beach
8. Greenville

- Understand **important vocabulary**.

**continent**: any of the seven large continuous land masses that make up most of the dry land on the surface of the Earth

**globe**: a 3-D, spherical representation of the Earth

**map**: a 2-D model showing information or giving directions of a particular place

**grid** an organizational system that divides a map into squares, making it easier to find things on a map.

**landform**: a natural feature of Earth' s surface

**equator**: an imaginary line drawn dividing the Earth into northern and southern hemispheres

**ocean**: the largest bodies of salt water, these surround continents and cover more than two-thirds of the Earth' s surface.

**key**: part of a map that is used to tell about what the pictures and symbols mean.

**Earth**: the planet we live on.

**symbol**: a picture or thing that represents or stands for something else.

**compass rose**: a tool that shows cardinal directions (North, South, East, West) to make finding things easier.
